EXPRESSION OF GRATITUDE

I am writing on behalf of recipients of wheel chairs in my subward and on my own behalf to express our deep gratitude for the wonderful gifts of wheel chair and other gadgets given to them on the 30th of July 2012, totally free.

For Bakari Mwalami and his mother the wheel chair has completely changed their way of life. All along Bakari has been fully dependent on his mother for all his movements including carrying him to the wash room. As a grown up person this has caused him a lot of embarrassment as well as limit his mother to undertake productive activities especially farming for their livelihood. With this wonderful gift, Bakari has now gained self esteem and enjoys movement with his peers and can now have privacy which he has never had before!

We thank you and your collaborators so much for changing peoples lives and wish you to extend such wonderful services to other disabled people elsewhere as well.

Remain blessed
